

Graded Result Guidelines

Information for Students

Competence is assessed **FIRST**:

VET is a competency-based system. Competence is demonstrating to the satisfaction of the assessor that a student can consistently meet **all** the unit requirements – elements, performance criteria, skills and knowledge.

Competence ensures a student is able to consistently *meet* a standard: yes / no.

For approved Courses - Once Competence has been demonstrated THEN your assessor will apply a Grade:

Grading, on the other hand, measures the degree to which a student exceeds or falls below that standard.

A graded result is required by some universities to allow our students entry to, and credits in, university courses. Grading is a university practice, not a VET practice.

A grade cannot be applied to an assessment decision until competency in the unit has been achieved.

The table below provides an idea of how an assessor would choose the right grade to apply to a student.
